

# Generative Adversarial Networks for Automatic Image Colorization

**Team:** Yet Another Layer - YAL

Cameron Fabbri, Md Jahidul Islam

# Image Colorization

- Problem domain choices:
  - **Image-to-image translation**, Classification
- Color-space choices:
  - **LAB**, RGB

# Background

## Applications and Approaches

### ■ Applications

- bla
- bla

### ■ Approaches

- Classical
- Deep learning based
  - Generative models
  - **Adversarial model**

*Thank you all !*
